
GreenConnect Workshop

Monday 9th January 2023, at the Home for Cooperation, Nicosia, Cyprus

The GreenConnect workshop is an event focused on discussing the latest scientific research in the field of renewable energy and the local challenges we face through the climate change emergency. The workshop aims to bring scientists and specialist speakers from the UK and Cyprus together and inform both academics and the general public through a series of presentations. The workshop will be held on the 9th January 2023 10:00-16:30 (GMT+2), Nicosia Cyprus, and will include opportunities to discuss the issues faced with experts in the field over coffee and lunch. If you have an interest in the challenges faced and the latest solutions available, or are an academic working in the field of green energy, then this event will be of interest to you.

Attendance is free but registration is required. Please register [here](#).
Everyone is welcome.
